

Relief for your personnel

A powerful companion for difficult tasks

The transportation of bariatric persons up and down stairs is often a great challenge. Sometimes it takes up to 8 people to painfully carry a patient in a carry-sling up and down stairways. In most cases this is an unpleasant experience for both, patient and personnel.

- **With the c-max⁺ 2 people can transport a patient safely and comfortably up and down stairs all the way to the ambulance**
- **Maximum weight of the patient is 300 kg**
- **Safe due to automatic brakes**
- **Suitable for almost all kinds of stairs, winding stairs included**
- **The climbing system is low in maintenance and reliable as proven manifold**
- **“Made in Germany”, state of the art, top quality, and sturdy**

Technical data

Total weight approved	380 kg
Max. weight of the person	300 kg
Climbing speed	3 - 8 steps / minute (continuously adjustable)
Range with one charge of the batteries on average load of 150 kg	300 steps
Range with one charge of the batteries on maximum load of 300 kg	135 steps
Width	527 mm
Depth (extended folded foot rest)	1226 1079 mm
Height min. max.	1490 1775 mm
Batteries	2 x 12 V / 5 Ah
Direct current motor	24 V / 275 W
Weight climbing unit	50.2 kg
Weight seat unit	19.8 kg
Weight handles	4.8 kg
Weight battery pack	4.5 kg
Total weight	79.3 kg
