

The multifunctional transportation aid

Solve your problems of transportation quickly and efficiently

Vario-max

www.aat-online.de

There are hotels and boarding houses without elevators. For people with a walking disability stairs are a great obstacle that must be conquered. Also transporting loads such as suitcases or laundry containers over stairs is a challenge.

This is precisely the point where the **Vario-max** comes in. As a stair climber for persons or loads, on stairs as well as on even ground, the **Vario-max** is your solution for transportation.

Its low weight and easy handling make the **Vario-max** a transportation aid you don't want to do without anymore.

Reduce health risks and economize costs. The **Vario-max** takes over your heavy jobs.

Even on narrow stairs the **Vario-max** is reliable. Its innovative climbing mechanism can also handle winding stairs. In addition, it can be used on virtually any type of surface, and e.g. edges of steps are not damaged.
