

AAT Stairclimbers: Trusted, Portable Mobility Solutions

AAT stairclimbers are battery-powered devices that help people with impairments safely and comfortably navigate stairs with the support of a carer.

As the UK's leading stairclimber suppliers, we've been trusted by nearly every local authority and NHS Trust for over 20 years.

For healthcare professionals:

- Best value for multiple clients via our unique UK-wide re-issue capability for <£1500! Many people helped, no capital equipment cost for each. Find out more: www.aatgb.com
- Stairway access problems solved, in 90+% of scenarios.
- Fast risk management: we can be on-site to assess within 10 working days, delivery within 5 working days of receipt of order (see T&Cs).

Why choose a stairclimber from AAT

No installation, no structural changes - just plug and play.

Effortless stair navigation: AAT powered stairclimbers handle single steps or full flights with ease - even tight turns and spirals!

Comfort and safety built in. Our stairclimbing wheelchair range prioritises comfort and safety for users and carers - at home and beyond. We have an impeccable safety record stretching back two decades. Our stairclimbers typically serve 10-15 years.

Support that goes the distance: our free no-obligation assessment considers all aspects, such as home environment, user and 'operator'. We personally set your stairclimbing wheelchair up for you and spend all the time you need to ensure you are comfortable using it. In the rare event it won't work, we'll say so.

Reliable aftercare: our team of highly trained engineers can service it on site annually and speedily resolve any issues should you experience any problems.

Key features:

- Adjustable to each user
- Completely portable
- Range of accessories for optimum comfort and security
- Rechargeable battery - each charge delivers up to 390 steps

Find the right stairclimber for you:

- **S-Max** - turns a manual wheelchair into a stairclimbing wheelchair.
- **S-Max Sella** - makes stairs easy without risk or obstruction.
- **SDM7 Universal Rack** - lock on an appropriate wheelchair and power up, or down stairs.
- **C-Max** - the universal stairclimber for anyone with reduced mobility.
- **Universal Seat System** - the ultimate accessory for perfect stabilisation and safety.
- Plus a range of individual accessories for tailor-made support, comfort and safety.
